What it costs

Our simple two-tier pricing structure is designed to cater for client portfolios with both standard and complex administration requirements.

SMSF Platinum administration fee

Standard	\$2,300 per annum
Complex	\$3,650 per annum

NOTES

- * All fees quoted are GST inclusive, effective 1 March 2015 and subject to change with notice.
- * Administration fees are determined and charged monthly. Price categories are determined by the number of assets held by the fund or portfolio as at month end and may change on a month by month basis accordingly. Multiport reserves the right to negotiate a higher fee if excess transactions occur or where data collection is non-standard.

Standard vs Complex

To make it easier to understand we've listed the criteria for our Standard and Complex packages below:

Standard	Complex
1 – 20 assets with no LRBA	> 20 assets with no LRBA
<u>OR</u> 1 – 5 assets with 1 LRBA	<u>OR</u> > 5 assets with 1 LRBA
No segregation	<u>OR</u> > 1 LRBA
	<u>OR</u> Segregated assets

NOTES

- * An asset is defined to be a single asset holding. For example, each of the underlying assets held within a wrap or IDPS platform will be counted as individual assets.
- * LRBA – Limited Recourse Borrowing Arrangement

Additional Services

1. Refer to SMSF Gearing Package brochure for more information

2. If you choose to wind up or transfer your SMSF in the first 12 months of your agreement with us you will be required to pay the balance of 12 months' administration fees. This is determined by calculating the number of months in the 12 month period multiplied by the administration fee for the month immediately prior to wind up or transfer of the fund. After month 12, there is no fee.

Segregated investment portfolios and lifetime and fixed pensions

An additional fee of \$66 per month will apply:

- where an SMSF, trust or portfolio has segregated investment portfolios
- where an SMSF has lifetime or fixed term pensions, or
- at our discretion where the fund, trust or portfolio makes investments in structures that are not able to provide electronic access to transactional information.
